

## The Win

Provide a meal for the HCC Family of Faith and guests that will encourage fellowship and provide an easier opportunity for families to enjoy the HCC Wednesday Night ministries.

## Guidelines

Have the meal ready to be served no later than 5:00 PM on your assigned Wednesday night. The TEAM should stop serving no later than 10 minutes before Church ministries begin to ensure everyone is involved in his/her respective church ministry for that night. The TEAM will also need to quietly clean kitchen areas afterwards realizing that some Wednesday night ministries are in close proximity to where supper is being served.

### Meal Locations

Provide the meal in the main location of the Church Foyer. Some of this meal will also be transported to the Student Building kitchen for additional serving in that location.

### Makeup of Meal

The TEAM Leader will decide the meal menu for your TEAM. The meal should be focused on a main course that will be appealing to families and individuals of all ages. While this is a difficult challenge, we want to ensure that families can all eat at HCC without having to feed anyone later when they arrive at home. At each meal, the TEAM will also provide a type of drink.

Water and coffee should be offered at each meal.

As needs arrive, the TEAM will also provide meals to House Worship Community TEAMS. This meal will be from the same Wednesday meal provided to the church on that evening. The TEAM will just need to prepare extra for this ministry when needed. The TEAM will be informed of how many House Worship Families will be served on their night before food is ordered for their particular meal. Someone from the House Worship Community Team will pick up the prepared meal from the HCC Main Kitchen and deliver it to the family.

Each Wednesday Supper Campus TEAM will need the following: obviously good Cooks, as well as servers, and a clean up crew.
